The present document has been prepared within the framework of the authority and competencies of the Cyprus Agency of Quality Assurance and Accreditation in Higher Education, according to the provisions of the "Quality Assurance and Accreditation of Higher Education and the Establishment and Operation of an Agency on Related Matters Laws" of 2015 to 2021 [L.136(I)/2015 – L.132(I)/2021].

A. External Evaluation Committee

Name	Position	University
Tony Bush	Chair and Professor	University of Nottingham, UK
Daniel Nordholm	Professor	Uppsala University, Sweden
Izhar Oplatka	Professor	Tel Aviv University, Israel
Christothea Herodotou	Professor	The Open University, UK
Maria Anastasou	Doctoral student	University of Cyprus
Name	Position	University

B. Guidelines on content and structure of the report

The EEC based on the external evaluation report (Doc.300.3.1) and the Higher Education Institution's response (Doc.300.3.2), must justify whether actions have been taken in improving the quality of the department in each assessment area.

1. Study programme and study programme's design and development *(ESG 1.1, 1.2, 1.7, 1.8, 1.9)*

Areas of improvement and recommendations by EEC	Actions Taken by the Institution	EEC's final recommendations and comments on the HEI's response
The programme is not available to international students unless they are fluent in Greek.	Now the program is offered in Greek, and it is available for Greek- speaking students. Our main target group for this master's is educators /researchers who are working in education, whether in Cyprus or Greece, where the official language is Greek. If the language of instruction was English, it would be difficult for the students to follow and attend the courses. However, the main bibliography that we use is in English and all students must use this during their studies. The programme is planned to operate in the Greek language, as it has operated since 2010. The strategic planning of our university, though, comprises the parallel development of the ELM programme in English. In that case, we will recruit international students as well.	Partial. The University should modify its claim to be accessible to international students. The University is also missing the opportunity to access potential students from private schools, where the medium is English. Students should be offered the option to prepare assessments in English.
The programme is not up-to-date, in respect of the theory, literature and research, in terms of recommended books, journal articles and other learning resources. It has not changed in a significant way since the 2018 QAA Review. We received a sample of student feedback but we are not clear about how, if at all, this influenced the design of the course.	The online programme under evaluation is a new programme that differs from the programme evaluated in 2018. We have updated the programme regarding the theory, literature and research regarding recommended books, journal articles and other learning resources. The feedback from our students is taken into consideration for the redesigning of the courses. We endorse our students' critical observations and adjust the content of our courses accordingly.	Partial. Annex 1 outlines the structure of the course. Semesters 1 and 2 comprise six courses, each worth 10 ECTS credits. Only two of these (ED595 and ED 605) relate to educational leadership and management. The research methods course (ED520) is appropriate if examples relate to educational leadership. The other three courses are not appropriate for a specialist master's degree and should be

and material for an online programme. This should be a requirement for all staff and offered on a yearly basis to ensure advancements in technologies and pedagogy are communicated to staff and used in their practices.	methodologies and advances. Training will be offered to staff at least twice a year to ensure the most recent trends in online learning are endorsed and fully activated in our Programme. The training series is being delivered in a workshop format. External and internal experts are invited to give the workshops. All the staff have participated so far in two online workshops in December 2023, one on using Moodle for online courses and one on designing online modules. In addition, other related workshops will be organised in the coming months as we proceed with our online programs. See below some of the topics:	
	 How to teach online (considerations on how to teach online effectively, theoretical underpinnings of online education, teaching methods, recent evolutions) Interaction with students in an online environment (online communication techniques). Students' engagement in an online course (tips to keep your students focused and engaged, digital tools for online courses, feedback, etc). How to use Moodle for the online courses (this training was done, and all the staff participated) Instructional Design (how to prepare your activities, etc) 	
Moodle analytics should be leveraged and train staff to act upon them to ensure the ongoing monitoring of student interactions online and the provision of timely support to students who do not engage, or interact with material, etc.	Training has been delivered to all ELM staff on how to retrieve these Moodle analytics and how they can use them in their teaching practice. Our technical team has ensured that Moodle analytics are available to all teaching staff, who were thoroughly trained to monitor all students' interactions with the material and eventually support the ones who will not interact according to the timetables of the courses.	Choose level of compliance: partial – There is no information provided to showcase what moodle analytics look like and what instructions teachers received as to when to access it and how to act upon it (a user policy is needed).
The online programme has nine courses while the conventional programme has 11 courses. The two programmes should be consistent in this respect. Our recommendation is that there should be a	 Both conventional and online programs were fully redesigned and restructured based on the accreditors' constructive feedback and suggestions. The new structure of both programs encompasses six (6) core courses (10 ECTS per module) + an obligatory Master thesis (30 ECTS). In case a student faces exceptional circumstances that prevent him/her from writing a thesis, in which 	Choose level of compliance: partial. Both progammes now have six modules plus a 30 credit thesis. Three additional modules are provided for students who (through undefined

ΔΙΠΑΕ

CYQAA CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION

maximum of nine courses for both programmes.	 case, the student may be given permission by the Academic Committee to earn 30 ECTS from three modules (10 ECTS per module) also available in the program. Students must complete 90 ECTS as well as all the requirements of the programme. -The structure is identical for both programs, including three modules in the first semester, three in the second semester, and a master thesis in the third/last semester. -The execution of the master thesis could start in the second semester based on the student's availability and workload. -Please see the new structure of the Education, Leadership and Management (ELM) master course in the Annex 1. 	exceptional circumstances) are unable to take the thesis. However, these modules are not relevant to ELM.
Assessment for both programmes should include a dissertation or thesis to enable students to engage in depth with an aspect of educational leadership theory, research and practice.	 -The master thesis is worth 30 ECTS and is now compulsory for both programs unless a student faces exceptional circumstances that prevent him/her from writing a thesis, in which case, the student may be given the permission by the Academic Committee to earn 30 ECTS from three modules also available in the program. -See the assessment criteria for the master thesis in Annex 2 	Choose level of compliance: partial. Partial. The EEC advises that the master's thesis should be compulsory for all students. This is a standard requirement for specialist ELM master's degrees globally. The alternative is not satisfactory as the courses mentioned in Annex 1 are not specific to ELM. Annex 2 provides generic criteria for the assessment of master's thesis. It is not specific to ELM. Even as generic criteria, it has little to say about how literature should be used in the thesis.
Consideration should be given to offering the online programme in English, as	The programme is planned to operate in the Greek language, as it has operated since 2010. The strategic planning of our university, though, comprises the parallel development of the ELM	Choose level of compliance: partial. Offering the online programme in English

She is due to join the University in January 2025. Annex 11 shows the CV for Dr. Areti Stylianou. She has a Ph.D. from UCL but not in ELM, as claimed by the University. The intention to recruit
There is a policy in place for the recruitment and selection of staff but criteria are not specific to the ELM field. The limited specific competence of the teaching staff was also pointed out in the 2018 evaluation and this remains a development need for the University.	background, extensive teaching experience and some of them strong research background in education. Now, we focus on ELM field, and we have recruited new staff with expertise in ELM. -We have recruited new senior staff with experience in ELM (Dr. Maria Karamanidou, see her CV in Annex 10), in addition to the staff already in place, who address issues of ELM both in their teaching and research, either thematically or concerning specific fields of educational theory and practice. -The application continues to be open to identify additional staff with strong expertise in ELM. See the application in Annex 4. -We have also appointed as an Adjunct Lecturer Dr Areti Stylianou, who holds a PhD in Educational Leadership from UCL (See her CV in Annex 11).	ELM specialist staff is admirable but the University's response is inaccurate. Dr. Areti Stylianou has not been appointed as an adjunct lecturer, as claimed by the University, and she is not a specialist in ELM. Dr. Maria Karamanidou was Professor Bush's doctoral student, and is a capable lecturer, but she cannot be described as 'senior staff'. She has accepted a position as 'assistant professor', starting from January 2025. Annex 4 shows that the University is seeking to appoint ELM staff. It adds that the starting date would be on or before September 2023, suggesting that the University's recruitment strategy was unsuccessful until the appointment of

N

be a high-priority issue for the department.	-The faculty contracts provide that, besides teaching, the faculty member's top priority is to conduct frontier research and publications in top-tier refereed journals and pursue research grants in his/her area. He/she is encouraged and expected to collaborate on research with colleagues at UOL and beyond. Each faculty member has a conference attendance allowance of 2,000 euros, a research allowance of 2,000 euros per year for research assistants, data, etc., and a software allowance of 1,000 euros).	between research and ELM teaching cannot be established without this information. Annex 3 is just a generic research policy statement, not specific to ELM, and does not specify research outputs.
The number of the teaching staff is adequate to support the programme of study. Visiting staff does not exceed the number of permanent staff. However, given the suggested re-design of the programme, including new courses that better address core elements of ELM, specialist staff recruitment will be necessary given the lack of research experience among the current staff. Teaching staff at different levels will be required to ensure a high-quality specialist programme.	The UoL research policy is attached in Annex 3. New specialist staff is recruited, focused on specific areas of ELM in research and teaching. See the bios of our new staff in Annexes 10 and 11. Manolis Koutouzis, Educational Leadership Michalis Socratous, Educational Leadership Maria Karamanidou, Educational Leadership Markella Gregoriou, Evaluation of Educational Staff Panagiotis Kosmas, Educational Technology and Research Methods in Education Ioannis Christodoulou, Philosophy and Sociology of Education, Ethics and Educational Leadership for Social Justice Maria Charalambous, Organisational Effectiveness and Improvement	Partial. Only Dr. Karamanidou has been added to the teaching team, as an assistant professor, but she has not yet taken up the position. A more senior position is required to ensure a high quality specialist program. Professor Koutouzis is a senior scholar but his Google profile does not mention the University of Limassol. Dr. Socratous lists CIIM, but not the University of Limassol, on his Google profile. The other staff listed here are not ELM specialists, as their titles indicate.
The teaching staff have so few publications in ELM, that it is not possible to secure meaningful synergies between teaching and research. Teachers, current or	 -Current and new teachers are focused on ELM to strengthen the link between teaching and research. -The faculty contracts provide that, besides teaching, the faculty member's 	Choose level of compliance: partial. Partial at best. The University's response is plausible but does not

CYQAA CYPRUS AGENCY OF QUALITY ASSURANCE AND ACCREDITATION IN HIGHER EDUCATION

eqar/// enga.

new, will need to be focused on ELM to strengthen the link between teaching and research.	top priority is to conduct frontier research and publications in top-tier refereed journals and pursue research grants in his/her area. He/she is encouraged and expected to collaborate on research with colleagues at UOL and beyond. Each faculty member has a conference attendance allowance of 2,000 euros, a research allowance of 2,000 euros per year for research assistants, data, etc., and a software allowance of 1,000 euros). -ELM staff will participate in the upcoming conference to be held in Cyprus on 12-13 April 2024 titled "Inspiring, guiding and empowering teachers and trainers: Convergences in Educational Leadership and Adult Education" (more info here <u>https://frederick.ac.cy/en/educational- leadership-adult-education</u>). Also, the ELM staff have already contacted the Educational Leadership Network Europe (ELNE) <u>https://elnenetwork.org/</u> and will participate in the upcoming webinars and activities of the Network. Additionally, we will explore other opportunities in the coming months. -The UoL research policy is attached in Annex 3.	indicate which articles have been published in which journals. Links between research and ELM teaching cannot be established without this information. Annex 3 is just a generic research policy statement, not specific to ELM, and does not specify research outputs. Annex 3 outlines the University's policy but this is a generic statement, not specific to ELM.
 The EEC found that the staff have experience from various disciplines and from working with the programme but generally they don't have adequate experience of working within the field of ELM, not as researchers or practitioners. Therefore, we also raise concerns whether there are appropriate	Appropriate processes are in place for the recruitment and development of the teaching staff. Regarding the recruitment process, after creating a short list of candidates for a position in the Program, interviews are given before a committee of experts who decide on the person to be recruited. The development of the teaching staff is equally decided by a confident	Choose level of compliance: Partial. 	Network Europe (ELNE) <u>https://elnenetwork.org/</u> and will participate in the upcoming webinars and activities of the Network. Additionally, we will explore other opportunities in the coming months.	
New ELM-specific professors should be recruited, including senior professors with established reputations.	We have recruited new senior staff with expertise in ELM (Dr. Maria Karamanidou, see her CV in Annex 10), in addition to the staff already in place, who address issues of ELM both in their teaching and research, either thematically or in relation to specific fields of educational theory and practice. The application continues to be open to identify additional expertise. See Annex 4. We have also appointed as an Adjunct Lecturer Dr Areti Stylianou, who holds a PhD on Educational Leadership from UCL. See her CV in Annex 11.	The intention to recruit ELM specialist staff is admirable but the University's response is inaccurate. Dr. Areti Stylianou has not been appointed as an adjunct lecturer, as claimed by the University, and she is not a specialist in ELM. Dr. Maria Karamanidou was Professor Bush's doctoral student, and is a capable lecturer, but she cannot be described as 'senior staff'. She has accepted a position as 'assistant professor', starting from January 2025. Annex 4 shows that the University is seeking to appoint ELM staff. It adds that the starting date would be on or before September 2023, suggesting that the University's recruitment strategy was unsuccessful until the appointment of Dr. Karamanidou.
Specific training is required to design and deliver high quality online courses in ELM.	We are organising a series of internal training sessions for all staff of the ELM program. The training series has been delivered in a workshop format. External and internal experts are invited to give the workshops. All the staff have participated so far in two	Partial. It is positive to note that internal training is provided for teaching staff but this does not appear to be specific to ELM.

4. Student admission, progression, recognition and certification

(ESG 1.4)

Areas of improvement and recommendations by EEC	Actions Taken by the Institution	EEC's final recommendations and comments on the HEI's response
Graduates receive transcripts on completion of their programme but it is not clear if this provides grade details for each module.	All graduates are awarded an official transcript of their academic record showing the courses they attended, the ECTS credits corresponding to each course and the final grade. See Annex 12	Choose level of compliance: Full.
Greater transparency is required in the respective roles of admissions officers and the programme director.	The admission policies and criteria, including academic requirements, standardized test scores, and any other relevant factors are easily accessible to applicants on our website. Additionally, comprehensive training is provided for admissions officers on the established admission criteria. There is also open communication between admissions officers, program directors, and prospective students.	Choose level of compliance: Partial. The procedures outlined are clear but students are admitted who lack appropriate professional and academic backgrounds. It is not clear who is responsible for recruiting such atypical students.
Progression criteria from one module to another should be clear and transparent.	The programme of study is abundantly thought out, and the modules follow each other in a row, according to a certain academic logic of issues that are to be addressed one after another.	Not compliant: The University's response is unclear.
Admissions to this specialist programme should be confined to applicants from a professional educational background.	95% of our students come from education. During the last few years, we have received applications from people with backgrounds in other fields. They wanted to expand their knowledge and expertise and apply for teacher positions in private and public education institutions. This did not affect the focus of the ELM program at all. We	Partial. The claim that 95% of student are from education does not match the profile of the students met by the EEC. The claim to offer 'the most up-to-date perspective on educational leadership' is not substantiated, as our earlier comments indicate.

Arrangements regarding accessibility issues were mentioned when meeting with the staff, yet there was no policy on how accessibility is ensured when students are studying online.	-An induction session is already established, including all people, ensuring accessibility to the platform, providing a user-friendly environment for all, and addressing the learning needs of all participants in the program. We make special arrangements for each case to accommodate all students' needs. Now, training and support are in place for students, focusing on the interaction and the specificities of e-learning. An instructional designer is hired to train teaching staff, who will constantly help the students adjust to the e-learning requirements. Once the programme is accredited and students	course is dependent on providing students (and staff) with access to these journals. This is especially important for the master's thesis, now expected from all students. This cannot be achieved through search engines because there is a paywall to accecc this content. Partial: The induction session is welcome but, as noted above, an instrcutional designer is required.
	them with the best practices and e-learning methods. -See Annex 8	
As detailed in section 2, teaching and learning resources need to be redesigned to meet current standards of online teaching and learning and move beyond face-to-face forms of instruction.	All courses for the online program have been designed in Moodle, considering the accreditors' recommendations and suggestions. See some screenshots of the courses in Annex 7 and the online eLearning environment in Moodle in the link here: <u>https://moodle.uol.ac.cy/course/view.php?id=3296</u> <u>https://moodle.uol.ac.cy/course/view.php?id=3269</u> Credentials: <u>elm_test@stu.uol.ac.cy</u> Password1!!	Partial: Annex 7 shows that the first course presents weekly interactive activites as forums and/or quizzes. In the second andthird courses, there are weekly activities, yet these do not make use of the affordances of online learning to promote interactions between students and the material, and between students and teachers.
