CYQAA Council's Decision

The Agency informs the institution than within a period of six (6) months and no later than the end of the Fall Semester 2023-2024, to comply with the following recommendation raised by the EEC:

- **Implement the "International classification of functioning" (ICF, defined by the WHO) as a basic model of thinking and goal setting for the clients into program and in each course.**

"The ICF is extremely useful in clinical practice because of its comprehensive and holistic nature and has as its primary purpose to establish a common language for defining health and health-related states between providers. The ICF is a biopsychosocial model of functioning, health, and disability. Using standard language to define and measure disability, the ICF helps to explain how a person's body problems and social circumstances affect their functioning."

The current accreditation begins in the **Fall** semester of the academic year **2023 – 2024** and ceases to be in effect at the end of the **Spring** semester of the academic year **2027 – 2028**.

On the basis of (4)(c) of the relevant Law, it is noted that “the above accreditation is valid for the period provided by the provisions of the Law and is repeated every five (5) years and that the procedure starts at the request of the institution, which must, and shall be submitted at least sixteen (16) months before the expiry of the previous accreditation”.

Additionally, on the basis of Article (17)(3)(g) during the period of validity of the Accreditation, the Agency acting of its own motion, may examine whether the criteria continue to be met and if they are not met, then the Agency shall revoke the Accreditation, and immediately inform the institution concerned.
