

Regulated Professions Representative Form

Section 1: Regulated Profession Details

Regulated Profession:

Full Name of representative	AMALIA HATZIYIANNI
Position/Title	Cyprus Medical Council Representative
Email	hatziyianniamalia@gmail.com
Phone Number	0035799314220

Section 2: Observations Regarding Legislation

Please provide specific observations related to the legislation governing this profession:

The European University Cyprus, Frankfurt Branch has rigorously duplicated the facilities and processes from the mother institution in Nicosia.

The institution offers a 6-year Doctor of Medicine (M.D.) program (360 ECTS), structured around a competency-based, integrated curriculum that aligns with European and international medical education standards (EU Directive 2005/36/EC and CYQAA accreditation requirements).

The "Registration of Doctors Law" (Cap. 250) of Cyprus establishes the requirements for registering doctors in the Medical Register. Under Article 4, an individual must hold a medical degree listed in the Third Annex and meet the conditions specified in the Fourth Annex—which sets forth the minimum training requirements, typically involving six years of study or 5,500 hours of combined theoretical and practical education. European University Cyprus, Frankfurt Branch is meeting these needs by offering a comprehensive medical education program that fully complies with these statutory requirements, ensuring that its graduates are well-prepared for professional registration.

Section 3: Additional Comments
